PROFESSIONAL EXPERIENCE

Associate Full Stack Developer · Consortia 22 *Dec 2023 – Feb 2026*
Full-time · Chennai, Tamil Nadu

- **6+ live** production websites maintained simultaneously with zero unplanned downtime across 2+ years of client deployments.
- Contributed to Steer Auto — a car marketplace enabling users to buy and sell vehicles — improving UI performance and cross-device responsiveness for a high-traffic production platform.
- Built and enhanced Steer App, an internal vehicle management system tracking incoming cars, repair workflows, and sales lifecycle — giving the operations team real-time visibility.
- Delivered a full-featured e-learning platform with course assignment, exam management, student progress tracking, and location-based login — used in production by employees and students.
- Diagnosed and resolved critical bugs in the e-learning platform, eliminating top user-reported issues and restoring stability in a single sprint.
- Automated resume intake and contact form processing for kuncapital.com using Python (Flask) + PM2 — removed 100% of manual HR data-entry effort.
- Re-architected the UI/UX of competency.difuza.com with full Dark Mode & Light Mode support — zero post-launch accessibility complaints.
- Built 3+ responsive static websites (SWTN, TTSrinath, and others) from scratch — each passed cross-browser QA on the first client review cycle.
- Managed 4+ client accounts end-to-end — translated ambiguous briefs into scoped deliverables and retained 100% of clients for follow-on work.

Freelance Full Stack Developer · Lakshmi Brand Masala *Feb 2025 – Oct 2025*

Freelance · Remote · lakshmibrandmasala.com

- Solo-built and shipped a complete e-commerce platform (React.js, Node.js, Express.js, MySQL) — from zero to production, on deadline.
- Architected RESTful APIs for product catalog, cart, and order processing with full CRUD — zero data integrity issues post-launch.
- Delivered mobile-first UI using Bootstrap 5 and Material UI; designed a normalized MySQL schema structured to scale to 100+ SKUs.

KEY PROJECTS

01 **Steer Auto — Car Marketplace** www.steerauto.com

React.js · Node.js · MySQL · Responsive Design

Maintained and optimized the frontend of a live car sales platform — responsive layouts, performance tuning, and cross-device QA for a high-traffic product.

02 **E-Learning Platform** elearning.difuza.com

React.js · Node.js · Express.js · MySQL · Bootstrap

Course management system with exam tracking, progress dashboards, and location-based login. Fixed critical bugs that restored platform stability.

03 **KUN Capital — Backend Automation** kuncapital.com

HTML5 · CSS3 · Python (Flask) · PM2 · REST APIs

Landing page for multi-brand Auto Dealers with an automated resume and contact-form pipeline — eliminated all manual HR data-entry using Python + PM2.

04 **Lakshmi Brand Masala — E-Commerce** www.lakshmibrandmasala.com

React.js · Node.js · Express.js · MySQL · Bootstrap · Material UI

Solo-built, live e-commerce platform — product catalog, cart, checkout, and order management. Delivered end-to-end as a freelance project, on schedule.

05 **SWTN & TTSrinath — Static Sites** www.swtn.org

HTML5 · CSS3 · JavaScript

Built and maintained two professional static websites from scratch — clean layouts, contact forms, and performance-optimized delivery.
